

Philippines 2019

February 23 – March 2

w/ optional extension March 2-7

Take full advantage of some of the world's best scuba diving! Some of the world's rarest critters compete for the underwater photographer's attention along the Dauin coastline near Dumaguete in the Philippines. The area is often frequented by

underwater photographers in search of exquisitely rare shots. The night dives are stunning, as are the mandarin fish dives at dusk and the fluoro dives where you can see the underwater world in a completely new light. Our optional extension for those who want to prolong their stay located offers a beautiful white beach, amazing dive sites and is a great destination for all levels of divers. There are about 20 excellent and unique dive sites which offer wall dives with amazing sizes of gorgonians,

different species of pygmy seahorses, muck diving, early morning and night dives can be arranged anytime. More than 7000 tropical islands, clear warm water, vast coral reefs and mind-blowingly beautiful flora and fauna make the Philippines a true scuba diver's paradise. You can find almost every underwater adventure and

experience here. Not to mention the beautiful landscapes topside, and the warm welcome from the friendly and natives. The underwater ecosystem is an epicenter of marine biodiversity with Dugongs and skittish scythe-tail thresher sharks leading a cast of more than 1200 marine species.
